

# US Ultra Short Municipal Bond Strategy

4Q 2023 | Short Duration Strategy<sup>1</sup>

## Risk vs. return<sup>2</sup>

## Target investor

Designed for investors with a longer investment horizon, seeking incremental yield over money market funds and the benefits of tax-efficient securities.

## Objective

To seek to provide returns, over a three-year market cycle, in excess of the Strategy's benchmark. The maximum portfolio maturity is three years. For comparative purposes, the benchmark is 70% Bloomberg Barclays 1-Year Municipal Bond Index/30% ICE BofA US Treasury 0-3 months.

## Characteristics

- **Yield to worst:** 3.53%
- **Strategy duration:** 0.26 years
- **Average credit quality of holdings:** AA<sup>4</sup>

## Quality allocation<sup>3</sup>

## Investment strategy

The Strategy is managed by capitalizing on inefficiencies in the municipal bond market in seeking to add value. The Strategy seeks to maximize after-tax total return, while minimizing volatility.

## Sector allocation<sup>3</sup>

## Investment process

- The UBS Asset Management (Americas) Inc. Municipal Investment Team adheres to a disciplined top-down investment process.
- The investment process relies on relative valuation combined with fundamental research performed by an experienced team of analysts.
- There is a commitment to in-depth proprietary quantitative, credit, market and economic research in three distinct areas: duration, sector allocation and security selection.
- The Team seeks to build portfolios that are consistent with clients' goals, guidelines and risk parameters.

## Philosophy

- We believe that the successful management of clients' assets is based on a disciplined investment process that is supported by extensive and in-depth research.
- We strive to deliver consistent, above-average returns with below-average risk.
- Our disciplined investment process is designed to deliver long-term, "northwest quadrant" risk/return performance results.
- Our overall focus is on seeking minimal loss of capital and maintaining liquid portfolios with enhanced yields.

**Past performance is no guarantee of future results.** Potential for profit is accompanied by possibility of loss. The information contained in this profile should not be considered a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in an account's portfolio at the time you receive this information or that securities sold have not been repurchased. The securities discussed do not represent an account's entire portfolio over the course of a full market cycle.

Information presented has been obtained from sources believed to be reliable, but not guaranteed, and reflects expectations for prospective return and risk using current market assumptions. The opinions expressed are a reflection of UBS Asset Management's best judgment at the time this report is compiled, and any obligation to update or alter expectations as a result of new information, future events or otherwise is disclaimed. There can be no assurance that any trends or projections described will continue or that forecasts will ultimately be realized as economic and market conditions change frequently. The achievement of a targeted ex-ante tracking error does not imply the achievement of an equal ex-post tracking error or actual specified return. According to independent studies, ex-ante tracking error can underestimate realized risk (ex-post tracking error), particularly in times of above-average market volatility and increased momentum. Different models for the calculation of ex-ante tracking error may lead to different results.
